

Limited Lifetime Warranty for MRT Brand Exhaust Systems

MRT now provides our customers with a Limited Lifetime warranty on all MRT manufactured T304 stainless steel exhaust systems. This warranty covers defects in material and workmanship for the purchaser of record on the vehicle in which the system was originally installed. This does not include blemishes or appearance deficiencies due to weather, road hazard or lack of maintenance. Exhaust tips are covered under the Limited Lifetime warranty for rust through; in some cases, surface rust can be expected, and is not covered by this warranty. If you are unsure of the difference between surface rust and rust through, please contact MRT directly for clarification.

MRT's High Flow Catalytic Converters are not covered under the Limited Lifetime warranty, however they carry a 90-day manufacturer's warranty. The MaxFlow Race systems are intended for racing applications and are not covered under warranty. Paint is NOT a warranty item.

The warranty is void if the product is not installed properly, or has been modified or altered in any way. If you believe that modification will be required to fit an MRT Exhaust system on your vehicle, please contact MRT **BEFORE** making any modifications to the system.

MRT is not liable for any incidental charges outside of the replacement exhaust; this includes, but is not limited to, labor charges, freight fees, loss of use or damage to vehicle.

You must submit your warranty registration within 30 days of receiving the product in order to qualify for MRT's Limited Lifetime warranty. You must submit a proof of purchase with your warranty registration card in order for your warranty to be valid.
